

Lake Elsinore Unified School District Maintaining Outstanding Education

Lake Elsinore Schools Provide High-Quality Education

Great schools improve the quality of life in our community and protect the value of our homes. We are proud to be recognized for outstanding academic achievement, with multiple National Blue Ribbon Schools, California Distinguished Schools, CA Business for Education Excellence Foundation's Honor Roll Schools, Title I Academic Achievement Award Schools, Riverside County Teachers of the Year and model school awards, including an International Baccalaureate Program with IB World distinction, in addition to honors and Advanced Placement classes.

Modernizing Schools So Local Students Can Compete

If we want our local students to succeed in high school, college, and careers, they must be skilled in the use of today's technologies and have a solid background in science, math, and technology. Current facilities are inadequate to our students' ability to build those skills.

Local School Improvement Funding to Reduce Reliance on State Government

The Lake Elsinore Unified School District Board of Trustees is considering placing a potential school bond measure on the November 2016 ballot that would:

- Upgrade local schools to support high-quality instruction in math and science
- Upgrade classrooms and computers to keep pace with technology
- Upgrade schools to support career and technology education to prepare students for college and high-demand jobs in fields like health sciences, engineering, technology, and skilled trades
- Improve student safety and security, including fencing, cameras, emergency communications, and fire and earthquake safety systems
- Provide facilities and equipment to support high-quality instruction in music and the arts
- Upgrade old playgrounds and fields to meet current health and safety standards
- Improve heating, ventilation, insulation, doors, and windows to increase energy efficiency and save money
- Add new classrooms and facilities to reduce and prevent overcrowding

Local Control and Strict Fiscal Accountability

- All money raised would stay local to support our students and could not be taken away by the State or used for other purposes.
- The proposed measure requires a clear system of accountability, including a specific project list, independent citizens' oversight and annual audits
- A measure would make our schools eligible for millions of dollars in state matching funds that would otherwise go to other communities.

For More Information

We welcome your input as we work to ensure our schools are updated to continue providing an excellent education. For more information, please contact the office of Superintendent Dr. Doug Kimberly at info@leusd.k12.ca.us.
